

Our democracy depends on open, honest media. That is why Groups like Sinclair are allowed to use the public airwaves free of charge. I thought they were obligated by law to serve the public interest. Sinclair's announced intentions to show a biased and inflammatory one-sided rendering of candidates for President shows that we need tougher media ownership rules and tighter control over tax support of lies and distortion! Remember, Michael Moore didn't use public airwaves. Our Radio and TV license renewal process needs to have real teeth - real enough to keep PUBLIC owned airwaves from being used AGAINST the public.

Just watch this democracy fall apart as you allow these conglomerates to manipulate public opinion with lies, and distortions. Think Adolf Hitler! Reign them in now or "heil" will sprout here!

Joseph P. Hegmann
